

# Apollo

(1986 - February 14, 2008)

Retired February 5, 2004

Apollo was a retiree from the pharmaceutical industry, helping with the creation of snakebite anti-venom.

After he foundered in 2006, Apollo joined the barn herd at Ryerss Farm, receiving many visitors. His stately, gentle demeanor quickly won him recognition as one of the favorites.

Apollo is now at rest with his long-time friend and former co-worker, Zeus. He is missed by his barn herd friend, Spade.
